POLL

FEATURED CANDIDATE

## Poll Winner

---

The winner of last issue's Poll question is Marc Leclair

The question was: **Do you think banking institutions need to become experts in Big Data technologies to succeed? Why?**

*It was Darwin who first said 'survival of the fittest.' That doesn't just apply to biology, it applies to commerce, technology and infrastructure as well. Look no further than the end of the behemoth Blockbuster to confirm that if you don't evolve with the times, you die out. Big Data technologies are the next big titan on the market, if banking institutions don't learn to keep up with it, they will be gobbled up by a larger fish in the ocean.*

Marc has won a Tim Hortons gift card! Thank you to everyone who submitted responses.

## FEATURED JOB

### Featured Job: Senior Solutions Architect

---

Senior Solutions Architect

Terrific permanent, full-time opportunity in the banking sector.

The Senior Solutions Architect will have the broad and deep technology knowledge and experience to architect and deploy centrally managed technology and solutions by mapping common business problems to reusable end-to-end technology solutions.

The incumbent will be responsible for detailed technical specifications for a number of new technologies on programs of high complexity.

If interested in this opportunity, please contact us at [contact@planet4it.com](mailto:contact@planet4it.com)

## Featured Candidate Meet Dave

---

A Senior Executive/Program Manager within the capital markets domain, Dave has extensive, hands-on leadership experience directing teams to develop and operate technology solutions.

Over the years, Dave has been instrumental in architecting and designing a myriad of solutions bridging the business and technical requirements of front- and back-office users, portfolio management, trade execution, trade monitoring, settlement, reconciliation and risk management revolving around technologies like TIBCO, FIX and XML.

He excels at product development and management, strategy, communication, client and vendor relations, and effectively bridging gaps between all stakeholders.

Dave has managed teams of developers and provided mentoring of concepts such as multi-hosted and multi-threaded applications, and database performance and tuning.

---

## Poll Question

---

This issues' question: Why do you think Credit Suisse reshuffled its executive team at the top?

Submit your answers to [aportelli@planet4it.com](mailto:aportelli@planet4it.com) or to [@planet4it](https://twitter.com/planet4it) on Twitter for your chance to win!
