POLL

Poll Winner

FEATURED CANDIDATE

The winner of last issues Poll question is Jen Frankel

The question was: **Do you think Canadian Trading Platforms need to be modernized for global purposes?**

I've never thought of Canada as a world leader in banking or trading - we always seem to come in second to New York, London and now China. If Canadian citizen's aren't seeing Canada as a world leader, how can we expect other countries to view us better than we view ourselves? Modernizing our trading platforms would not only make us better able to compete, but it would help us become more of a recognized power in the world. Especially if we're among the first.

Jen has won a Tim Hortons gift card! Thank you to everyone who submitted responses.

FEATURED JOB

Featured Job: Business Analyst, Trading Systems

We have an Excellent contract opportunity in the banking sector, downtown, 6 months (possibly 12) to start, with a leading Canadian Bank.

There are 2 positions available for Business Analysts to assist in QA testing of a Murex implementation/upgrade.

Please note: though this is a testing role, we require Business Analysts, not solely QA Analysts. A thorough understanding and work history with Murex is required.

If interested in this opportunity, please contact us at contact@planet4it.com

Featured Candidate Meet Ben

A Scrum Certified Senior Project Manager with an extensive capital markets background, and a track record of successfully executing projects related to the implementation of brand new trading systems. He also has experience with other projects in the areas of data analytics and reporting, business intelligence, data warehousing, data mining and data analysis.

Adept at managing project relationships between all stakeholders engaged in the project/program delivery to ensure the goals set forth are achieved. Executed programs with budget in excess of \$30 million while successfully directing and leading teams of various sizes.

Managed quality metrics and reporting as a part of the Product Management life cycle.

With a Bachelor and an MS in Engineering and several other certifications to his credit, Tom is a PM that can make a difference!

Poll Question

This issues' question: Do you think banking institutions need to become experts in Big Data technologies to succeed? Why?

Submit your answers to aportelli@planet4it.com or to [@planet4it](https://twitter.com/planet4it) on Twitter for your chance to win!
