

P4Capital

Featured Staff Member: James

One of the newest member of our team at Planet4IT is James. A highly skilled individual with more than nine years of experience under his belt working for companies such as ScribbleLive and Right Move, he brings his many talents and skills to the team.

A fairly new resident to Canada, he moved here from London in January 2010 and has since fallen in love with Toronto. If you're looking to transition your company to cope with the new digital era, he will bring your business to the next level.

He's already done it across the ocean!

Whether he is helping employers find the perfect solution, or trying to break 100 on the golf course, he puts his mind whole heartedly to whatever challenge he faces.

P4CAPITAL ROUND TABLE – CREDIT SUISSE

P4Capital is continuing our series of Podcasts and interviews featuring our executive team, who will be discussing pressing concerns for the Canadian financial industry.

This weeks topic, Credit Suisse and their recent reshuffling at the top.

POLL

Poll Winner

The winner of last issues Poll question is Marc Leclair

The question was: **Do you think banking institutions need to become experts in Big Data technologies to succeed? Why?**

It was Darwin who first said 'survival of the fittest.' That doesn't just apply to biology, it applies to commerce, technology and infrastructure as well. Look no further than the end of the behemoth Blockbuster to confirm that if you don't evolve with the times, you die out. Big Data technologies are the next big titan on the market, if banking institutions don't learn to keep up with it, they will be gobbled up by a larger fish in the ocean.

Marc has won a Tim Hortons gift card! Thank you to everyone who submitted responses.
